Courseware | Grades 6–12

imagine edgeEX

Go Further with Imagine EdgeEX™ Social Studies Courses

Built-in features designed to support comprehension and promote student agency

Imagine EdgeEX's innovative features don't just increase accessibility — they put students in the driver's seat by helping them understand where they're succeeding and where they may need more practice.

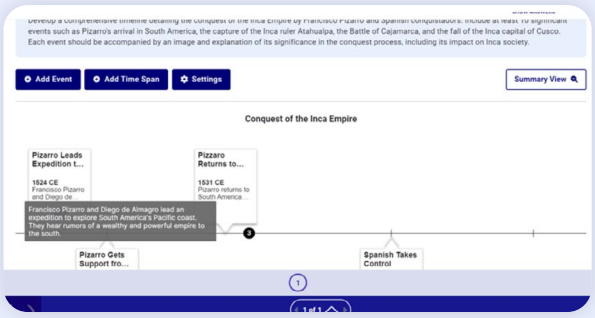

Embedded supports help students grasp important concepts

✓ **Inquiry Lessons:**
These project-based lessons in the honors courses allow students to explore compelling questions to form a deeper understanding of key themes and ideas. Students engage with a variety of multimedia activities, reflections, and more.

- Inquiry lessons

✓ **Timeline Projects in U.S. and World History:**
Updated interactive timeline tools make it easy for students to organize key events and add images, videos, and audio to their displays for U.S. and World History timeline projects.

- Interactive timelines

✓ **Fillable Guided Notes:**
Guided notes help students record important information and foster deeper comprehension. Imagine EdgeEX takes it one step further with fillable PDFs, so students can type right into their notes while working through a lesson.

Help your students reach their potential with Imagine EdgeEX.
