imagine language & literacy®
Over 20 years of literacy innovation

The Perfect Partnership for Early Literacy Success

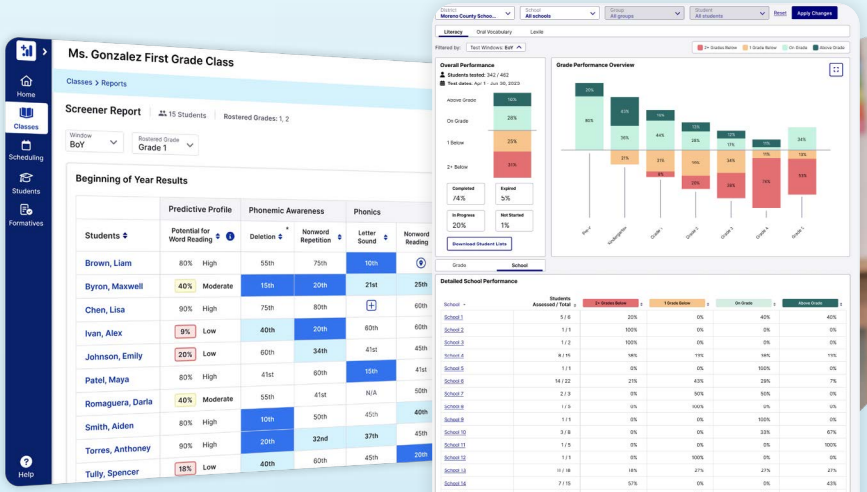

Research-backed solutions that work better together to support early literacy

Combine the deep insights of Imagine+ EarlyBird Screener with the adaptive power of Imagine Language & Literacy® to give every PreK–3 student exactly what they need to succeed.

Assessment + Instruction: Stronger Together

When combined, Imagine+ EarlyBird Screener's granular insights and Imagine Language & Literacy's adaptive instruction:

- Identify struggling readers early
- Provide clear, actionable data for next steps
- Guide targeted instruction to meet real needs
- Improve literacy outcomes with research-based practices

Imagine+ EarlyBird Screener: game-based assessment that delivers critical insights

While students play games with Pip the toucan, educators gather essential early literacy data, identifying exactly which skills need support. This self-directed and auto-scoring tool is easy to implement after a brief training.

Imagine Language & Literacy: simultaneous, personalized language and literacy instruction

The program's Smart Sequencer™ technology provides personalized learning pathways that simultaneously build phonological awareness, phonics, fluency, vocabulary, and comprehension. Strategic multilingual scaffolds in 20 languages support English learners while meeting standards in all 50 states to deliver results across grade levels and student populations.

Our proprietary Smart Sequencer™ makes decisions dynamically about what students will do next

A Combination That Makes a Difference

For Teachers

- Immediate insights into student strengths and gaps
- Next steps supported with skill-specific resources
- Easy to use with automated scoring and reporting
- Data-informed decisions built on proven research

For Students

- Game-like experience across both assessment and instruction
- Personalized pathways that adjust in real time to accelerate growth
- Instruction is always at the right level
- Intervention begins before gaps grow wider

For Districts

- Meets dyslexia and early literacy screening requirements
- Maximizes ROI with two solutions that amplify each other's impact
- Clear, comprehensive reporting for accountability
- Fits seamlessly into MTSS and RTI frameworks

The Science Behind the Success

Imagine+ EarlyBird Screener:

- Developed at Boston Children's Hospital in partnership with the Florida Center for Reading Research
- Peer-reviewed by the National Center on Intensive Intervention
- Measures skills most predictive of reading success

DEVELOPED & TESTED AT Boston Children's

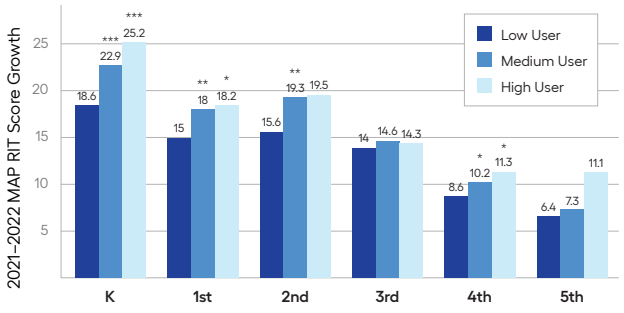

Area	Skill
Phonemic Awareness	Rhyming
	First Sound Matching
	Blending
	Deletion
	Nonword Repetition
Phonics	Letter Name*
	Letter Sound*
	Nonword Reading
	Nonword Spelling
Fluency	Word Reading
	Object RAN
	Letter RAN
Vocabulary	Vocabulary (Receptive)
	Vocabulary (Expressive)
	Word Matching
Comprehension	Oral Sentence Comp
	Follow Directions

*additional printed subtests:

- Oral Reading Fluency
- Reading Comprehension

Average NWEA MAP RIT Score Growth by Grade from Fall 2021 to Spring 2022

Note: Low user = students who passed 0-10 literacy lessons; Medium user = students who passed 11-20 literacy lessons; High users = students who passed 21+ literacy lessons. Asterisks denote values significantly different than the low user group. ***$p < .001$, **$p < .01$, *$p < .05$

//CODiE// 2021 SIIA CODiE WINNER

//CODiE// 2022 SIIA CODiE WINNER

Imagine Language & Literacy:

- 20+ years of continuous improvement backed by research
- SIIA CODiE and EdTech Digest Cool Tool award winner for educational excellence
- Delivers statistically significant gains
- Direct and explicit instruction proven to accelerate language and literacy learning

20 years of imagine language & literacy
