Meet ClassMate

AI-Powered Teaching. Built for Real Classrooms.

ClassMate is a powerful suite of **7 AI-supported tools for teachers**, seamlessly embedded within **Imagine EdgeEX**. Designed using Imagine Learning's **Curriculum-Informed AI** principles, ClassMate helps educators save time, personalize instruction, and improve student outcomes—without adding complexity.

Why ClassMate?

Today's educators are balancing more than ever. ClassMate helps by turning everyday challenges into streamlined solutions:

Save Time Where It Matters Most: Automate time-consuming tasks like lesson planning, resource searching, and communication—so teachers can focus on teaching.

Personalize Instruction at Scale: Quickly identify student needs and deliver targeted support with AI-powered insights grounded in real classroom data.

Turn Data into Action: No more digging through dashboards—get clear, actionable recommendations instantly.

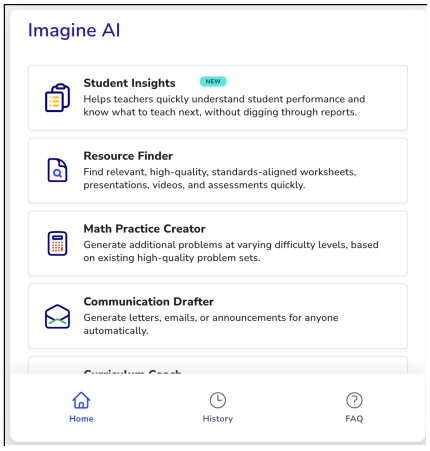

Strengthen Family Engagement: Communicate clearly and efficiently with students and families in multiple languages.

Built Differently: Curriculum-Informed AI

Unlike generic AI tools, ClassMate is trained on **trusted EdgeEX curriculum and professional learning content**, ensuring standards-aligned, reliable outputs, instructional relevance across subjects, and teacher control and flexibility.

Aligned to high-enrollment courses including **Algebra 1, Algebra 2, Geometry, Biology, and ELA 9-12.**

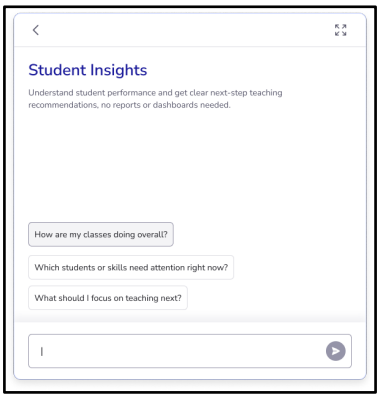

What This Means for Your District

- Spend less time planning, more time teaching
- Ensure standards alignment and compliance
- Scale instructional support across classrooms
- Deliver innovation at **no additional cost (BTS 2026)**
- Access instant, curriculum-aligned resources
- Improve student engagement and outcomes

7 AI Tools. One Seamless Experience.

Student Insights: Quickly understand student performance and take action.

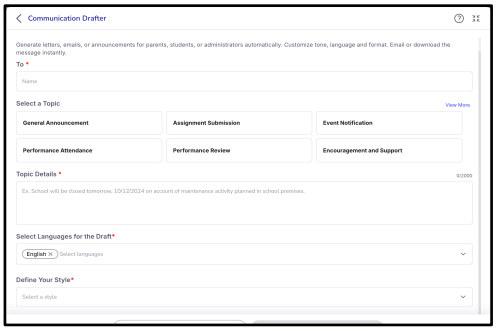

- Identifies at-risk students and learning gaps
- Provides clear next-step recommendations
  Benefit: Faster intervention and improved student outcomes

Resource Finder: Find standards-aligned lessons in seconds.

- Matches resources to curriculum and objectives
- Surfaces high-quality EdgeEX materials instantly
  Benefit: Eliminates time spent searching for the right content

Math Practice Creator: Generate customized math practice on demand.

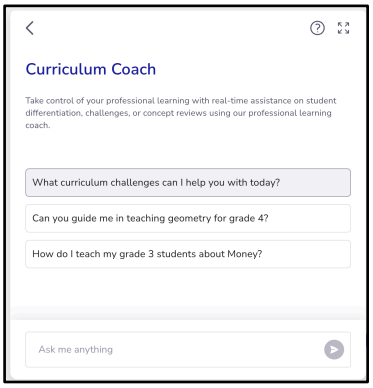

- Adjust difficulty, context, and standards alignment
- Built for Algebra 1, Algebra 2, and Geometry
  Benefit: Targeted practice tailored to every learner

Communication Drafter: Simplify and strengthen communication.

- Draft emails, letters, and announcements instantly
- Translate into 13+ languages
  Benefit: Save time while improving family engagement

Curriculum Coach: Get real-time instructional support.

- Offers differentiation strategies and concept guidance
- Based on actual curriculum and professional learning
  Benefit: Personalized coaching—right when teachers need it

Lesson Plan Creator: Build complete lesson plans in minutes.

- Includes objectives, activities, and assessments
- Fully customizable
  Benefit: Eliminates planning from scratch

Standards-Based Lesson Plan Creator: Turn standards into ready-to-teach lessons.

- Auto-aligns instruction to required standards
- Ensures compliance while maintaining flexibility
  Benefit: Save time while meeting instructional requirements
