Courseware | Grades 6–12

imagine edgeEX

Why Imagine EdgeEX?

Our brand-new Imagine EdgeEX™ courses provide an engaging and accessible learning experience for all students, empower teachers through actionable data and easy-to-use tools, and provide districts with more visibility and flexibility to customize.

Top 10 reasons to transform your course experience

1

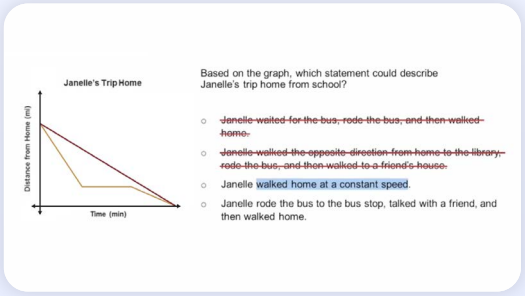

ANSWER EXPLANATIONS

Answer Explanations for math assignments and assessments support students struggling with content and make intervention easier for teachers.

2

SHOW ME VIDEOS

Short reteaching videos are provided when students answer selected math problems incorrectly, providing just-in-time intervention exactly when students need it.

- Show Me Video

3

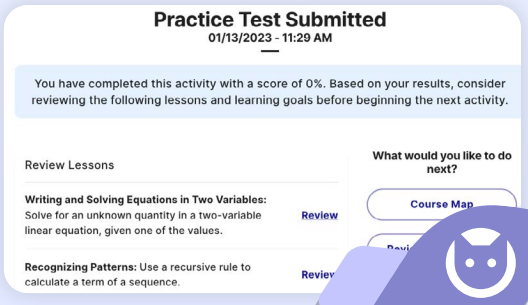

FILLABLE GUIDED NOTES

Newly formatted Guided Notes support deeper comprehension with fillable fields that can be completed digitally.

4

PERSONALIZED STUDY PLANS

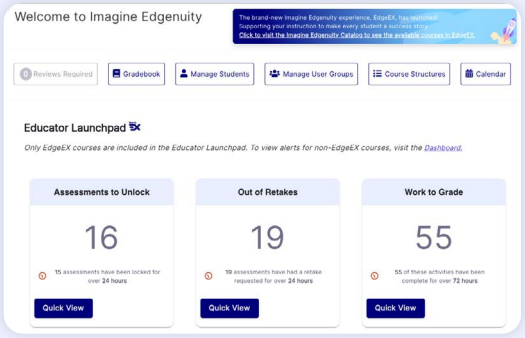

Students receive personalized study plans that empower them to tackle content they need to practice more.

- Personalized Study Plans

5 EDUCATOR LAUNCHPAD

An actionable, visual display of students who need assessments unlocked, additional retakes, or work graded — helping teachers prioritize their time and work efficiently.

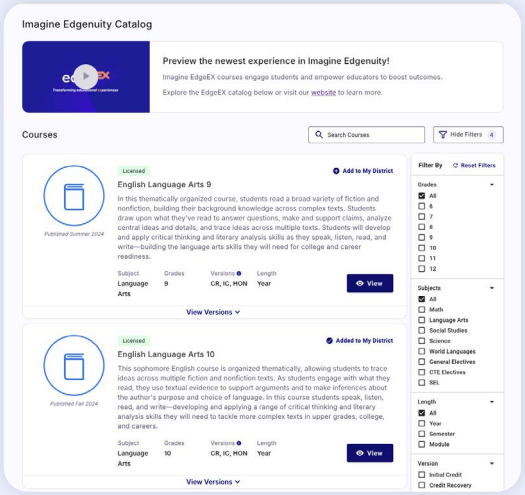

- Educator Launchpad

6 GRADEBOOK

With a streamlined interface, AI-suggested comments for student writing, and conveniently placed scoring resources, grading is easy and efficient.

7 COURSE CATALOG

Preview course content in the student experience, add courses to your district and schools, set course options, manage sections, and more in one place, with fewer clicks.

- Course Catalog

8 COURSE OPTIONS

Give educators a new level of flexibility to customize with more than a dozen new options.

9 SPANISH VIDEO TRANSLATIONS

Introducing a powerful new feature in Imagine EdgeEX: video translations designed to help Spanish-speaking English language learners with additional support in math, science, and social studies.

10 DYNAMIC RESOURCES

Important documents — including the syllabus, scope and sequence, Guided Notes, and standards alignments — automatically reflect course customizations, which means educators save time managing courses.
