Imagine Edgenuity® Implementation Models

A flexible digital curriculum that supports evolving instructional needs

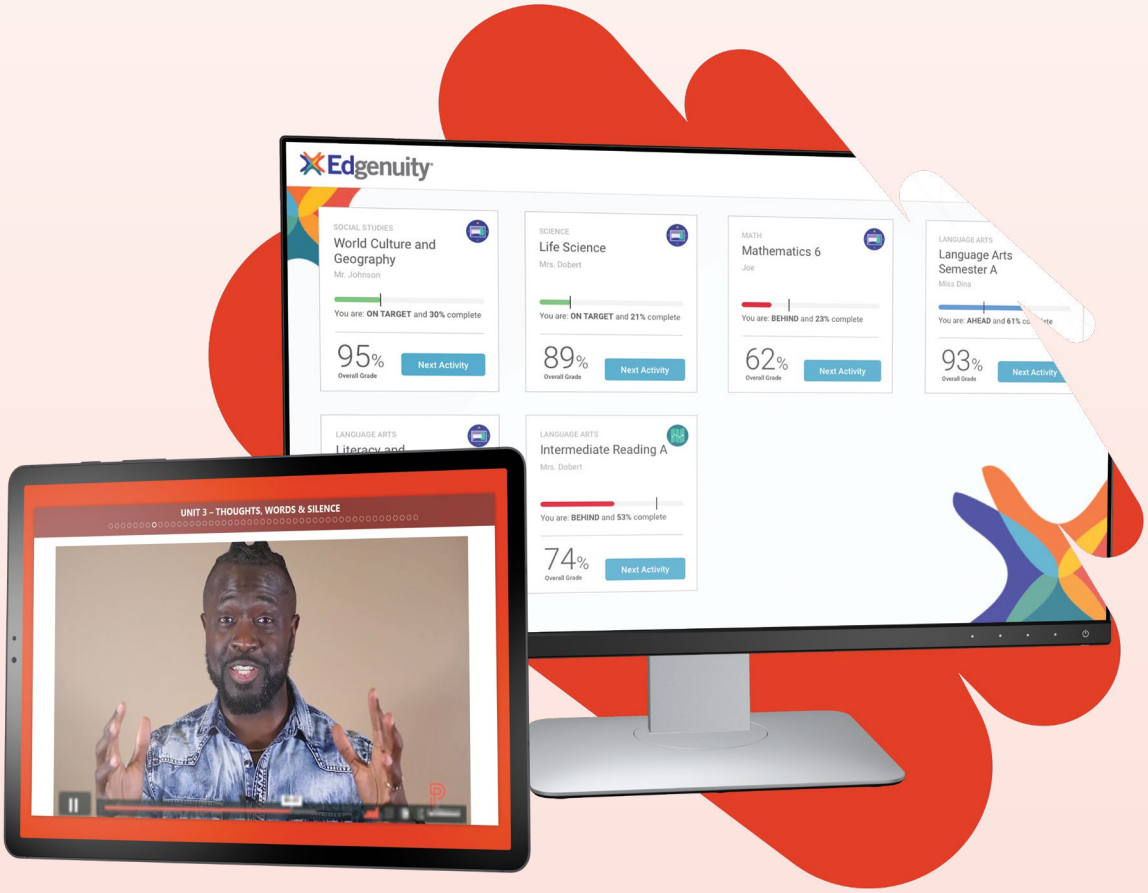

imagine learning

“I get excited about the Edgenuity platform from an instructional perspective because the curriculum is there. It’s not a fast forward and guess model or style. It looks, feels, reads, and behaves like authentic curriculum.”

• • •

Jake Langlais, Principal, Lewiston High School, Maine

edgenuity

Award-Winning, Standards-Based Online Curriculum

Imagine Edgenuity enables students to take ownership over their learning and supports educators with **Teacher Powered Technology™** that helps them improve efficiency and maximize student success. Courseware curriculum is grounded in research and aligned to state standards, the Common Core, and the NGSS.

Course Design Influenced By Industry Experts, Research, and Educators

Imagine Edgenuity courses are created by cross-functional teams of experienced educators and instructional designers with expertise in curriculum development, instructional technology, and content-area education.

Effective Instructional Model

Imagine Edgenuity is the first online courseware program with all four core subjects to earn Digital Promise's Research-Based Design certification.

Courses feature rigorous, explicit instruction led by expert on-screen teachers. Motivating, media-rich content provides students opportunities to explore, and build understanding via engaging and powerful interactive instructional tools. Students also complete a range of tasks—including independent reading, practice, and guided online exploration, as well as projects and performance tasks. Each lesson includes assessments to determine whether students have mastered the lesson objectives. Cumulative practice and assessment are included at the end of each unit or topic, as well as at the end of each semester.

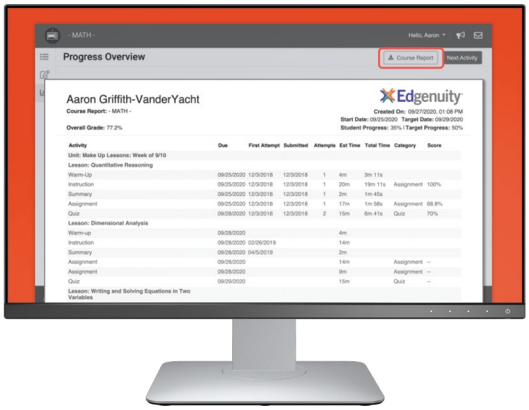

Flexible Implementation to Fit Your Needs

Imagine Edgenuity is customized to meet state standards and graduation requirements and can be customized further to align to your district's pacing plan or scope and sequence.

Courseware for Credit Recovery

Keep Students on the Path to Graduation

Imagine Edgenuity's credit recovery courses provide students with flexible research-based, digital curriculum that encourages students to take ownership of their learning. Students can access their courses anywhere, anytime with a device and Wi-Fi.

- **Lesson-level pretests** allow students to place out of content they already know and spend more time on the skills they still need to master.
- Each student receives a **personalized pacing calendar**, keeping them on track, and alerts that let them know exactly how much time they need to spend to catch up if they fall behind.
- **Assessments** can be locked until students are in a proctored classroom environment, ensuring academic integrity.

Building a Credit Recovery Program that Works for You

Schools and districts throughout the U.S. have designed a number of different credit recovery programs to meet their needs, including these common implementations:

CREDIT RECOVERY LAB
Develop a credit recovery lab for students to attend during their scheduled lab periods or blocks. Labs can be staffed by a teacher or facilitator and offer students a dedicated time and place to complete their work.

SUMMER SCHOOL
With flexible online learning solutions, your school or district can offer credit recovery courses during summer school for students to complete from home or on campus.

Design a Program that Works for Your School or District to:

Provide students with multimodal instructional content that is individualized to fit their needs. Empower teachers with real-time data on student progress and engagement to motivate students and help them stay on track.

CONCEPT COACHING
Also available on-demand, our **Concept Coaches** provide one-on-one tutoring seven days a week, which students can access directly through the learning management system. This means they have access to both their instructor and tutors anytime they need help.

One Solution, Many Ways to Implement

Expand Your Reach with Flexible Learning Models

Learning can take place at any time, any place, any path, and any pace. Post-pandemic, schools will continue to see demand for online learning. Districts are responding by either evolving and expanding their existing school models or establishing new virtual academies to accommodate future enrollments. The flexibility in school models provides many benefits for districts, educators, and students.

For Districts and Educators:

- Maximize enrollments by providing options for families and students looking for an alternative learning approach
- Optimize staffing plans to help with teacher reach and interaction with students
- Create capacity to balance interaction with large classes and smaller groups

For Students:

- Broadens access beyond traditional courses to include
- Advanced Placement®, world language, and CTE and other electives
- For struggling students, provide alternative options to graduation

A Trusted Partner

Imagine Edgenuity is your trusted partner for supporting flexibility in delivery and content, with your educator and student needs at the forefront.

- ✓ In-District Virtual Schools
- ✓ Apprenticeship Learning
- ✓ Virtual Learning Academies
- ✓ Summer School

"I can be in the gradebook, and it's like having the teacher's manual in front of you."

Courseware for Alternative Education

Supporting the Whole Student for Success

Every student can learn and should have the opportunity to do so! Imagine Edgenuity can make that happen by partnering with school districts to design alternative education programs that empower students to take ownership over their learning while motivating them to continue their education.

Whether your students need to complete their coursework during a disciplinary break from their schools, earn their high-school diplomas in their adult years, or work on their education while in a secure environment, Imagine Edgenuity's learning solutions are designed to help you offer exactly what they need to be successful.

- Expanded learning options empower students to take ownership over their learning at a pace that works for them.
- The instructional design of Imagine Edgenuity courses presents concepts in multiple ways, including interactive activities and animations to keep students engaged and motivated.
- Robust classroom management tools and real-time reporting free up valuable educator time so they can focus on meeting individual student needs.
- Automatic emails can be sent daily, weekly, or monthly to keep families, mentors, coaches, and other members of a student's support system in the loop on their progress.
- Easy-to-implement K–12 content and resources at your fingertips help integrate social and emotional learning into your classroom.

Expand Learning Opportunities For Non-Traditional Students

For some students, the traditional school setting isn't feasible due to work, medical needs, or other life challenges. Imagine Edgenuity delivers self-paced content and curriculum in a variety of engaging formats with built-in assessments to keep students on track to earn their high-school diplomas in an environment suited to their learning styles and needs.

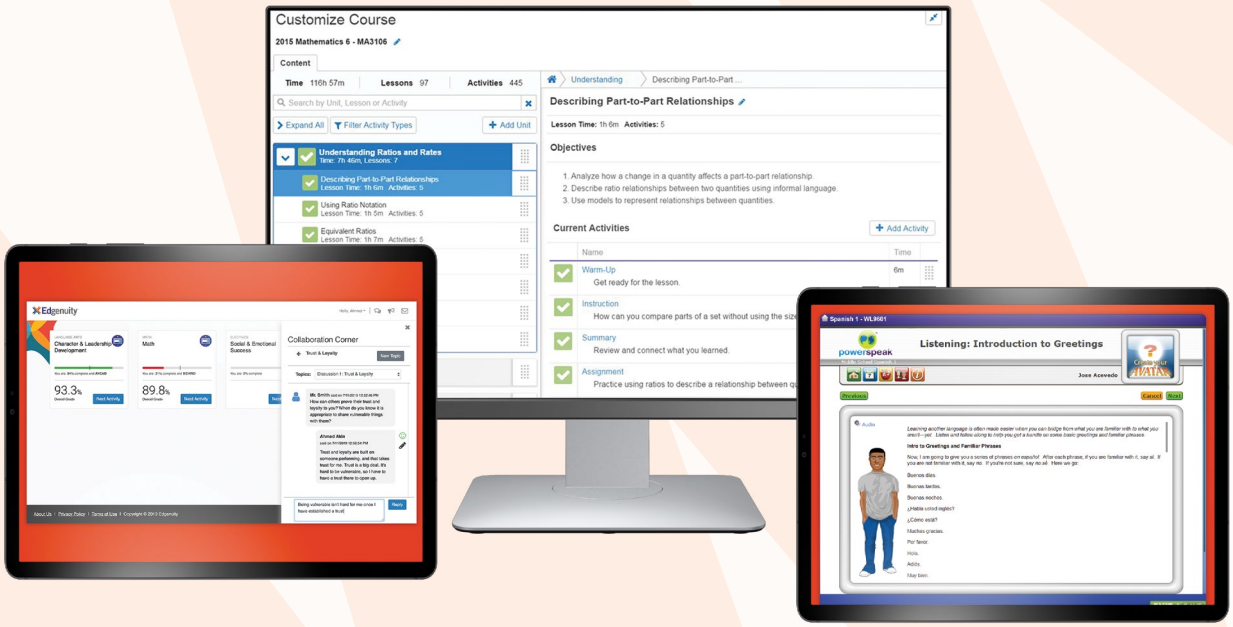

Online Curriculum and Test Readiness For Adult Learners

Everyone deserves a high-quality education, regardless of life challenges. Imagine Edgenuity partners with schools and districts across the nation to offer academic programs to help adult learners reengage with their education. Imagine Edgenuity offers engaging content, independent learning, and immediate feedback that empowers adult learners attain the skills they need to reach their educational and career goals.

Improve Learning Outcomes For At-Risk And Adjudicated Students

Imagine Edgenuity is a powerful option for at-risk and adjudicated students to continue receiving a high-quality education safely and securely, even when they are unable to attend traditional schools. Our safeguarded technology can be used in contained environments as well as traditional schools to help at-risk students succeed, which allows for:

- Secure access to Imagine Edgenuity's instructional platform and curriculum
- Collaborative planning between districts, alternative facilities, and Imagine Edgenuity
- Flexible content delivery and student monitoring
- Transferring of student progress to home schools

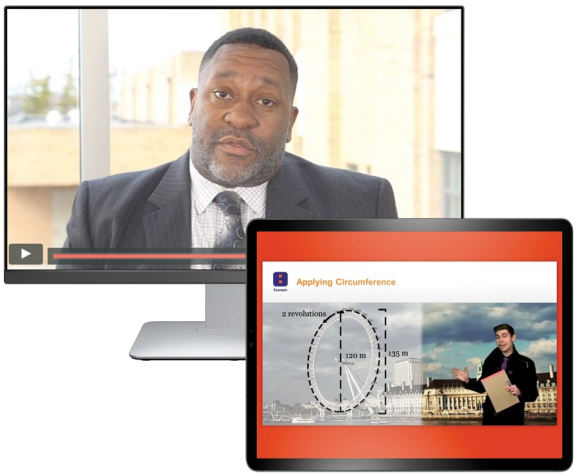

Complementing Core Instruction

A Comprehensive Solution that Raises Student Achievement

Imagine Edgenuity offers the rigorous, research-based curriculum that can be adapted for any instructional needs in a classroom. Aligned to national and state standards, Imagine Edgenuity offers seamless, personalized instruction, practice, and review to ensure all students reach and exceed grade-level mastery so they pass their classes the first time, excel on high-stakes assessments, and are prepared for college and career.

A Robust Set of Tools and Resources

With purposeful technology and plentiful opportunities for students to explore, learn, practice, and reflect, the Imagine Edgenuity learning management system can be effectively used in classrooms to drive student engagement and confidence.

Reinforce student understanding on key concepts by accessing online instructional videos.

Provide access to additional grade-level instructionand independent practice for students who are ready to be challenged.

Full units, lessons, or specific parts of lessons can be assigned to students during planned or unplanned absences.

Guided Notes are designed to help students **take a more active role** in their learning.

Customized to Fit Any Teaching Model

Imagine Edgenuity products and services are designed by educators, tested by students, and built to enhance teaching and drive academic achievement at all levels. Our online curriculum and learning solutions empower educators to leverage innovative technology that integrates seamlessly with their teaching style. Every tool and feature within our products is built to support educators, improve student outcomes, and strengthen the connection between the student and teacher.

Whether your goal is to provide curriculum for initial credit or complement your existing classroom resources to help reinforce basic concepts, credit recovery, or unit mastery, Imagine Edgenuity has you covered.

A Full Suite of Learning Tools

Courses are fully customizable and feature a full suite of learning tools and scaffolds to effectively use in any of the following implementation models:

FLIPPED CLASSROOM

Teachers can use the customization tools to assign instruction and quizzes, and then use the data from the Lesson Mastery Report to group students based on how well they understood the material at home. Teachers have easy access to their Data Dashboard, which enables them to plan their instruction or assignments based on student performance and engagement data.

VIRTUAL, ASYNCHRONOUS LEARNING

Flexibility to add your own content enables teachers to remediate with individual students asynchronously for more personalized learning. The Attendance Report details how much time students spend working on each course in which they are enrolled, and the Collaboration Corner provides a moderated discussion forum for students to ask and answer questions about teacher-posted topics.

BLENDED LEARNING

Concept Recovery modules enable teachers to assign each student or group the standards they need to work on. Imagine Edgenuity can be configured to lock assessments while students are working at home and then bring students back to the assessments once they are in a proctored classroom environment.

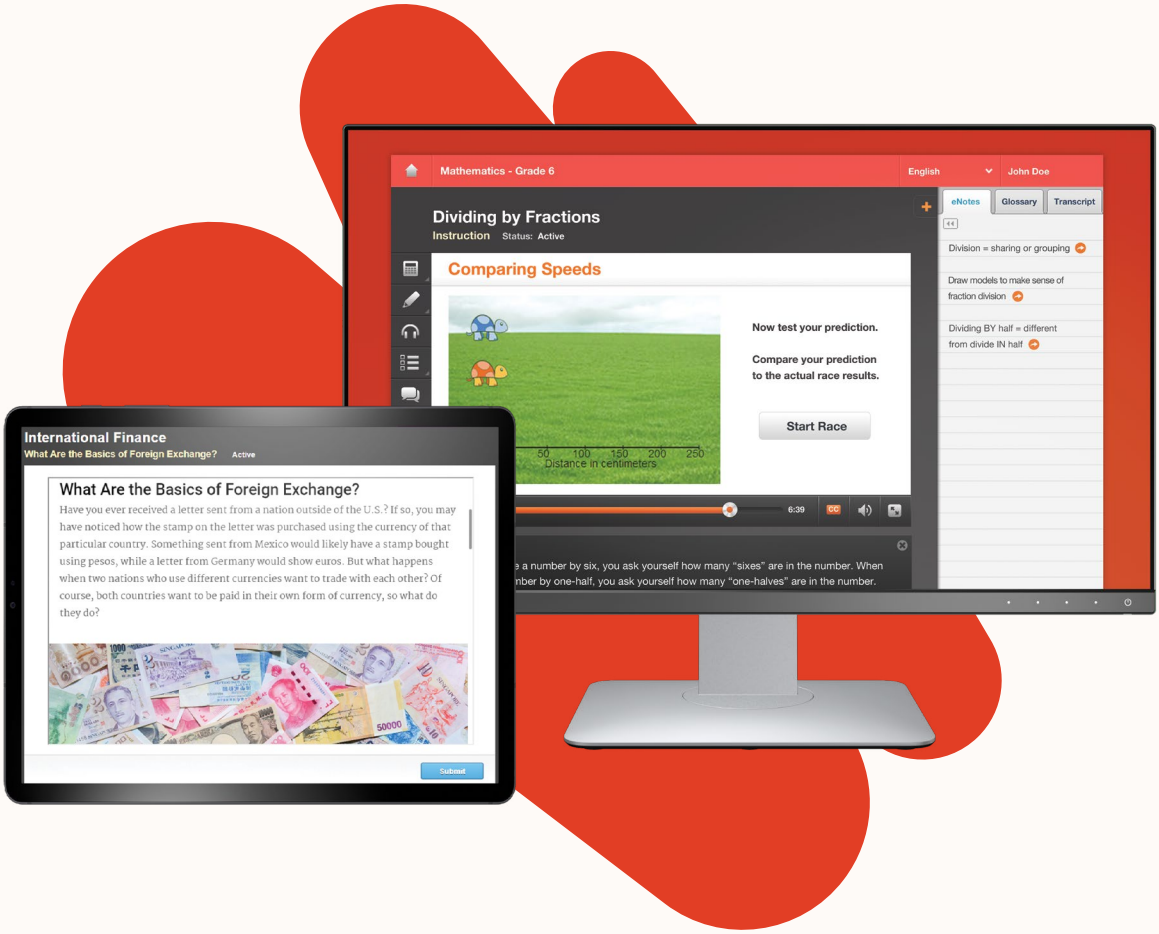

Expand Your Reach

More Options for Districts, More Choices for Student

From grade-level content that builds foundational skills to advanced courses and everything in between, Imagine Edgenuity has a solution that fits your needs.

Imagine Edgenuity is designed to engage students in grades 6–12 with its robust catalog of over 400 interactive, multimedia-rich courses. Students can complete these courses to earn initial credit, recover credits toward high school graduation, and for grade-level advancement.

"Times have changed and kids are learning differently. They want different opportunities, and we found that we need to provide as many opportunities as we could."

Michael Bejarano, Chief Academic Officer, Amphitheater School District, Arizona

Expand Your Course Offerings and Give Students More Choices

CORE CURRICULUM

Imagine Edgenuity provides a full suite of initial-credit courses for middle- and high-school students in English language arts, math, science, and social studies.

CONCEPT RECOVERY

Self-paced learning and pretesting enable students to spend more time on what they need and less time on content they've already mastered so they can catch up and graduate on time.

ADVANCED PLACEMENT®

Imagine Edgenuity's Advanced Placement® courses include rigorous coursework, an array of multimedia activities and assignments, and an online platform for in-depth discussion.

WORLD LANGUAGES

Our language courses are aligned to state and national (ACTFL) standards and help students build a strong foundation in vocabulary, grammar, and communications in Spanish, French, German, Chinese, and Latin.

CAREER ELECTIVES

Career and technical education courses give middle- and high-school students the opportunity to explore exciting careers and plan for their future.

GENERAL ELECTIVES

General electives offer middle and high school students the opportunity to explore a variety of interests such as art, psychology, economics, and health and physical education.

STATE-SPECIFIC COURSES

Imagine Edgenuity publishes state-specific courses to help students achieve success and meet the standards and graduation requirements of their state.

TEST PREPARATION

Test readiness courses deliver comprehensive preparation for national exams including SAT®, ACT®, PSAT™, GED®, HiSET®, ASVAB, and TASC™.

imagine edgenuity

Designed For Learning Breakthroughs

Imagine Edgenuity offers a rigorous, research-based curriculum with a student-focused experience designed to ignite learning breakthroughs that lead to lasting academic success.
