Sessions	4 sessions	8 sessions	2 onsite days (4 sessions)	4 onsite days (8 sessions)

Four levels of sessions available

- Leading with Success for Administrators
- Getting Started Workshops for Educators
- Next Step Workshops for Educators
- Targeted Support

LEADING WITH SUCCESS

Audience: Administrators

Session Title	Description
Best Practices to Lead with Success	Prepare leaders with everything needed to jump-start and lead a successful implementation. Dive into each school's success plan and map out best practices for the first 30-60-90 days to guide how to use Imagine Edgenuity with fidelity, monitor progress and track achievement data, and celebrate student success. A leadership coaching tool to support what to look for in the first 30-60-90 days is tailored for each school's implementation model.
Establishing a Data Culture	Guide leaders in establishing a data culture that emphasizes collaboration while cultivating a growth mindset and relational trust. Craft action plans to adopt a data-driven instructional model, develop data teams, model data usage and dialogue while using data to drive student achievement.
Facilitating Data Teams and Data-Driven Dialogue	Prepare leaders to facilitate data teams and establish protocols to foster data-driven dialogue. Engage in hands-on exploration with reports, and develop action plans to promote data-driven decision making to support educators with instructional planning.
Best Practices for Academic Integrity	Prepare leaders to identify an acceptable policy for user behavior in online learning, form strategies to prevent cheating and plagiarism, and develop and evaluate district- or school-level academic integrity policies and procedures.
Course Customization for Program Leaders	Guide leaders to determine which courses and levels are appropriate for district- or school-level customization. Examine course structures and customization tools, participate in guided course customization practices, and map out action steps to roll out and implement customized courses.
Best Practices for Mid- and End-of-Year Procedures	Support leaders with key steps for mid- and end-of-year data management, including user permissions, enrollment and course management, managing student and educator accounts, and updating the district calendar.
Summer School Set Up & Success	Focus on the key steps to get started with summer school. Gain a solid understanding of teacher and student experiences, focusing on managing students and courses, data points to monitor, and how to use data to target student learning outcomes and accelerate student growth.

GETTING STARTED WORKSHOPS

Audience: Educators

Session Title	Description
Getting Started with Imagine Edgenuity	Build a solid understanding of Imagine Edgenuity's student and educator experiences. Learn how to manage courses and student accounts, and identify how to use data to drive student engagement, progress, and achievement.
Best Practices with Reports and Data	Gain a foundational understanding of the engagement, progress, and achievement metrics. Discover key reports, learn how to identify learning gaps in both group and individual data, and leave equipped with monitoring strategies and steps for student goal setting.
Course Customization for Educators	Learn how to plan and build customized courses for both individuals and groups. Examine course structures and customization tools and participate in course customization.

NEXT STEP WORKSHOPS

Audience: Educators

Session Title	Description
New Users: Data Management and Progress Monitoring	Provide a hands-on opportunity for educators to review engagement, progress, and achievement data metrics using school data. Run key reports to analyze group and individual data to identify learning gaps and trends, form targeted goals, select success strategies for students, and learn steps for data chat-conferencing.
Year 2+ Users: Data Management and Progress Monitoring	Extend beyond the data basics with school data by identifying data-driven teaching strategies that address learning needs. Develop plans to implement data routines that track engagement, monitor progress, and measure achievement. Leave feeling confident accessing reports and interpreting data to make learner-centered and data-informed decisions.
Blended Learning Best Practices	Discover best practices to blend instruction with Imagine Edgenuity, maximizing the best use of time, place, and space. Dig into Imagine Edgenuity content to leverage unit and lesson planning, course customization, managing course options, and more. Learn how to analyze data and make instructional decisions to ensure student progress and achievement.
Helping All Learners Succeed	Learn about tools and strategies to support all students, with a special focus on exceptional student populations. Leverage individual student customization and accommodations/modifications to meet learner needs. Dive into progress monitoring best practices to set and track goals, and create strategies to help all learners succeed.
Summer School Success	Build a solid understanding of the student and educator experiences. Learn how to manage students and courses, identify key reports and progress monitoring tools, and understand best practices and routines for summer school.

TARGETED SUPPORT

Session Title	Description
Goal Setting and Motivating Students	Identify expectations and acquire steps for student-led goal setting. Learn about motivation strategies, how to increase student engagement, and promote student agency in learning. Utilize progress monitoring tools to track and increase student success.
Managing Your Classroom with Success	Dive into implementation goals and focus on how to meet them through effective classroom management. Establish structures and routines to support online learners, and examine data and reports that inform conferencing and success strategies.
Academic Integrity for the Classroom	Prepare educators to identify acceptable policies for user behavior in online learning. Explore strategies to prevent cheating and plagiarism, develop and evaluate academic integrity policies in the classroom, and utilize reports and progress monitoring tools to analyze and increase student accountability.
Engaging Families	Learn how families can be involved and informed through Imagine Edgenuity and how to prepare the home learning environment with resources to set students up for success to learn at home. Participants will leave with ready-to-go resources that they can share with families.
Customized Office Hours with Tailored Support	Address questions that teachers or leaders have at each stage of your implementation. We tailor sessions to site- or classroom-level topics and issues, support new users, and dive into new features, all to ensure educators are set up for success. Topics can include: • Best Practices with Manage Enrollments • Best Practices with Grading Student Work • Best Practices with Data Reports & Analysis • Best Practices with Course Customization • Best Practices with Student Ownership of Learning • Best Practices with Virtual/Remote Learning

Our PD specialists will partner with you to tailor sessions to your implementation goals.
