K–12 Core Math Instructional Resource

Your district has adopted Imagine IM as their instructional resource for math. This program contains both consumable (shipped and replenished every year) and nonconsumable (only shipped in year 1 and not replenished every year) print books and manipulative kits.

How will the consumable and nonconsumable print books be delivered?

Pallet Delivery* — Larger orders will have boxes shipped on a pallet. Master Packing List enclosed in the orange sleeve located on the outside of the pallet.

Carton Delivery — Smaller orders come in individual boxes. The master packing slip is located in carton #1, with the orange “Packing List Enclosed” sticker.

*Most schools will have books delivered via pallet.

empower potential

How will the cartons and boxes be labeled?

Look for the Imagine IM logo on the box label.

While not every box in your order will have a packing slip, every box will contain a label on the outside of the carton to help identify what items are inside.

Mixed cartons will contain same grade level products. Please note, it is possible that only one item will be packed in a box, depending on the order.

How do I know what items and quantities are in the order?

The packing slip details the items and quantities included in each order. Use the packing slip when checking in items.

Receiving Guidelines

Mixed Carton – A mixed carton is a carton that contains multiple titles. Please make sure to fully open and count all contents of mixed cartons. Mixed cartons will be marked with a green sticker as well as a label noting all titles contained inside the carton.

Inventory must be verified upon receipt

Any discrepencies in quantities received must be reported within 30 days of receipt of delivery to coreprint@imaginelearning.com

Have a great year!

Any discrepancies in quantities received resulting from missing or damaged items must be reported within 30 days of receipt of delivery to coreprint@imaginelearning.com

What information is on the packing slip?

1. IL Sales Order # — The order number issued from Imagine Learning that should be referenced for any replacement requests.
1. Item ISBNs and Item Description — These columns list the component name and ISBN number. Please note, the bolded ISBNs are the header for the parent items, and you will receive the individual books listed underneath.
2. Order Quantity — Lists the number of units ordered.
3. Current Ship Quantity — Lists the number of units shipped.
4. Backorder Quantity — Shows any items and the amount in backorder.
5. Pallet Number (Location) — Shows the location per pallet/carton each item was shipped in for easy accessibility when unboxing.
6. Total Cartons — Total number of boxes in shipment.
7. Total Pallets — Total number of pallets in shipment.
