imagine math®

Success with Imagine Math® and NWEA™ MAP®

Automatically leverage your RIT scores to personalize math instruction

NWEA Integration offers a deeper level of optimized learning

Imagine Math 3+ is a rigorous, language-rich, and adaptive supplemental math program designed to engage students through age-appropriate learning environments. With NWEA integration, students' grade-level learning pathways are personalized using their RIT scores.

Grade 2 Student Progress Report

Imagine Math PreK–2

- Domain-specific RIT score ranges are mapped to Imagine Math instructional content.
- BOY MAP RIT scores automatically provide personalized placement within each student's grade-level pathway.
- Subsequent MAP assessment outcomes automatically adjust each student's grade-level pathway to meet their learning needs even more accurately.

Imagine Math 3+

- Domain-specific RIT score ranges are mapped to Imagine Math instructional content.
- Throughout the academic year, MAP assessment outcomes adjust each student's grade-level pathway to accurately meet their learning needs.
- Domain-specific mini pathways are available by RIT score range to provide automated optional extra practice or challenge content for students.
