Core Curriculum | **Grades** K–6

twig SCIENCE Fast Track

Focused science instruction at a pace that fits real classrooms

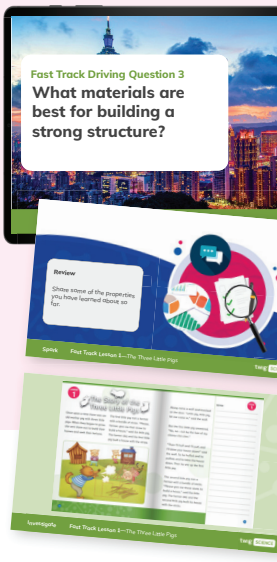

Twig Science Fast Track is now available as a standalone product. It delivers a complete, NGSS-aligned K–6 science experience in fewer lessons, making it easier for schools to fit high-quality science into limited instructional time.

What is Twig Science Fast Track?

Fast Track is a streamlined version of Twig Science, designed for schools that need a more efficient pathway through science instruction.

- K–6
- Complete digital experience, with print Trade Books, student Twig Books, and lab materials kits available for purchase
- Lower-cost alternative to the full program
- The standards coverage and phenomena-based learning of Twig Science structured to fit classrooms with more limited instructional minutes

Why schools choose Fast Track

- Supports efficient, focused instruction
- Fits seamlessly into available instructional time
- Reduces teacher prep with clear pacing and guidance
- Simplifies adoption of high-quality science instruction

What's included

- Fast Track pacing guides with lesson timing and standards
- Slides customized for Fast Track lessons
- Module-level assessment summaries
- Digital access to phenomena, videos, read-alouds, and teacher materials
- An index identifying lessons with Hands-on Lab video substitutions, plus guidance for using them effectively

Phenomena-based, multimedia science adventures in a focused, digital-only format
