What's New for Back to School 2026

The Imagine Learning team has been hard at work continuing to define the industry standard for digital courseware. In 2026, we are rolling out new features and content that support administrators, teachers, and students.

Combined Attendance Reporting (Edgenuity & EdgeEX)

Teachers can now view attendance reporting via the Session Log and Attendance Log for both Edgenuity and EdgeEX courses all in one report.

Redesigned Family Portal (Edgenuity & EdgeEX)

One convenient location for parents or guardians to check to view their student's progress, attendance, and course map and report.

New! Expanded Integration with Canvas and Schoology (EdgeEX)

New LTI integration for EdgeEX with grade passback to Canvas and Schoology via Thin Common Cartridge (TCC).

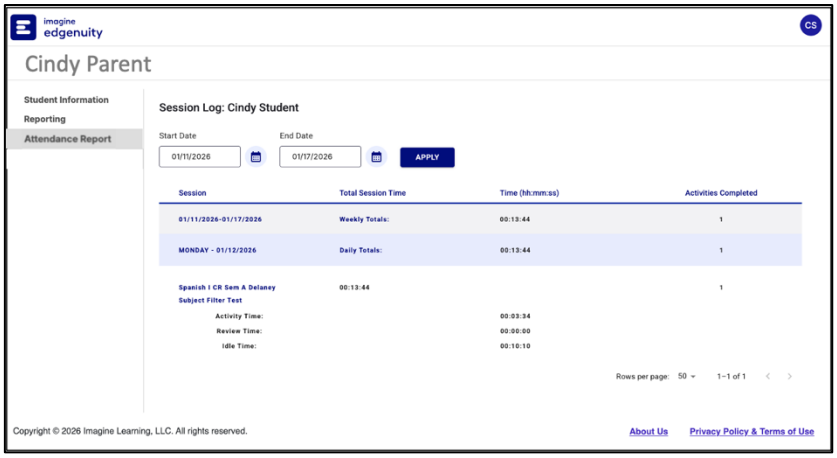

New! Manage Sections (EdgeEX)

Now teachers and administrators can archive and unarchive sections in bulk. This is helpful for doing end of semester or end of year clean up.

New! Admin Reports for Teachers (EdgeEX)

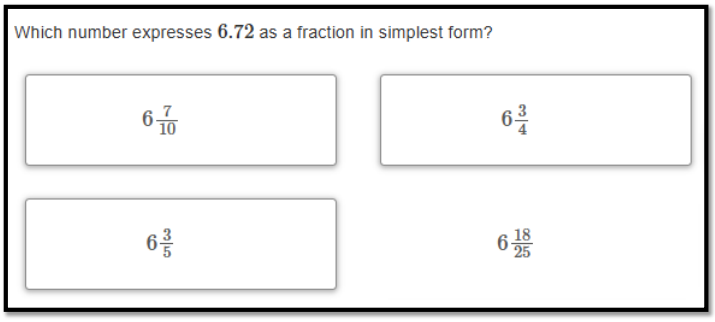

These reports were previously only available to administrators. They are now available for teachers.

- Academic Integrity (EdgeEX)
- Teacher Actions (EdgeEX)
- Course Options Summary (EdgeEX)

New! Reduce Answer Choices (EdgeEX)

Using a new setting on the student profile, teachers can reduce the number of answer choices by 1 or 2 for assessments. This feature allows for greater IEP accommodations.

New Video Lessons Across the Curriculum

Our curriculum development team is hard at work updating over 840 lessons by the end of this calendar year. Within a lesson, we will be inserting brand new instructional videos. These will appear throughout the curriculum as soon as they are released. These new videos feature more visuals to engage the student while retaining all the academic content and rigor of our award-winning curriculum.

New Imagine EdgeEX Courses Coming for BTS 2026
